CABLE LAYING

Cable laying is a complex task, because of the low tolerances on cable elongation. Dynamic forces such as cable weight in water, bottom tension caused by negative slack, and vessel speed, affect the elongation of the cable, thus the tension on the cable must be controlled at all times.

All tensioners are designed to give the best possible effectiveness, by using a feed-back loop to adjust the tension on the cable. This way we control the effects of the dynamic forces with our products.

REFERENCE LIST

INFO:

- **Customer** Contractor H-09337, Denmark
- **Qty.** 1
- **Capacity** 30T
- **Speed** 740 m/h, 50Hz
- **Type** 4 track
- **Delivery** 2009

REFERENCE LIST

INFO:

- **Customer** Boskalis H-11516, Netherlands
- **Qty.** 1
- **Capacity** 15T
- **Speed** 740 m/h, 50Hz
- **Type** 2 track
- **Delivery** 2011

REFERENCE LIST

INFO:

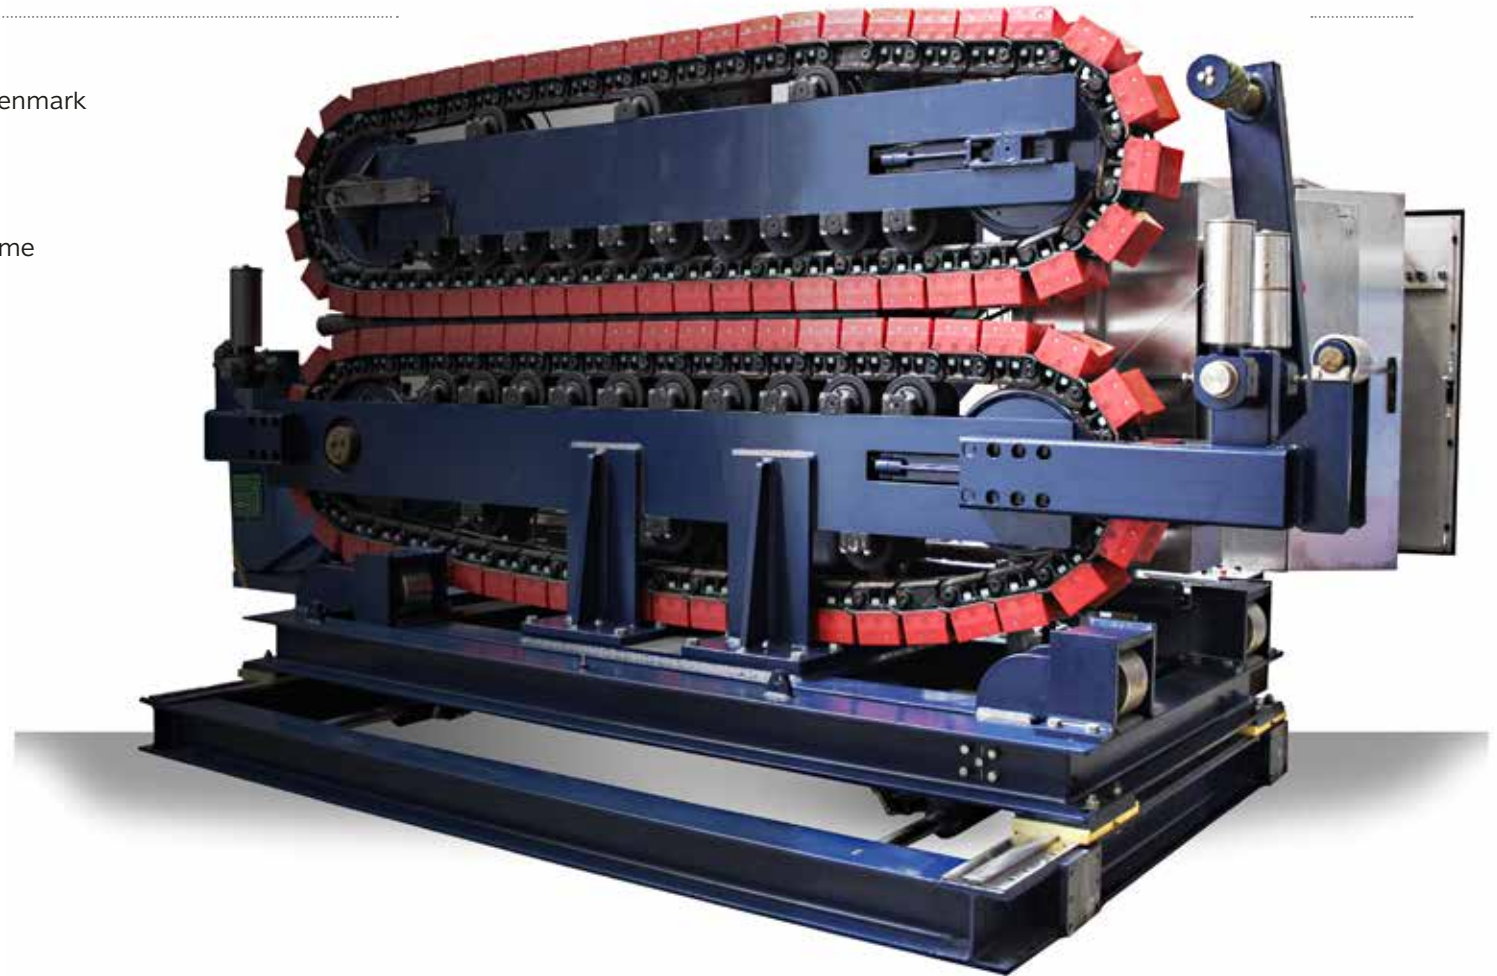

- **Customer** Boskalis H- 12387, Netherlands
- **Qty.** 1
- **Capacity** 30T
- **Speed** 740 m/h, 50Hz
- **Type** 4 track
- **Delivery** 2012

REFERENCE LIST

INFO:

- **Customer** CT-Offshore H-13154, Denmark
- **Qty.** 2
- **Capacity** 10T
- **Speed** 990 m/h, 50Hz
- **Type** 2 track with skidding frame
- **Delivery** 2013

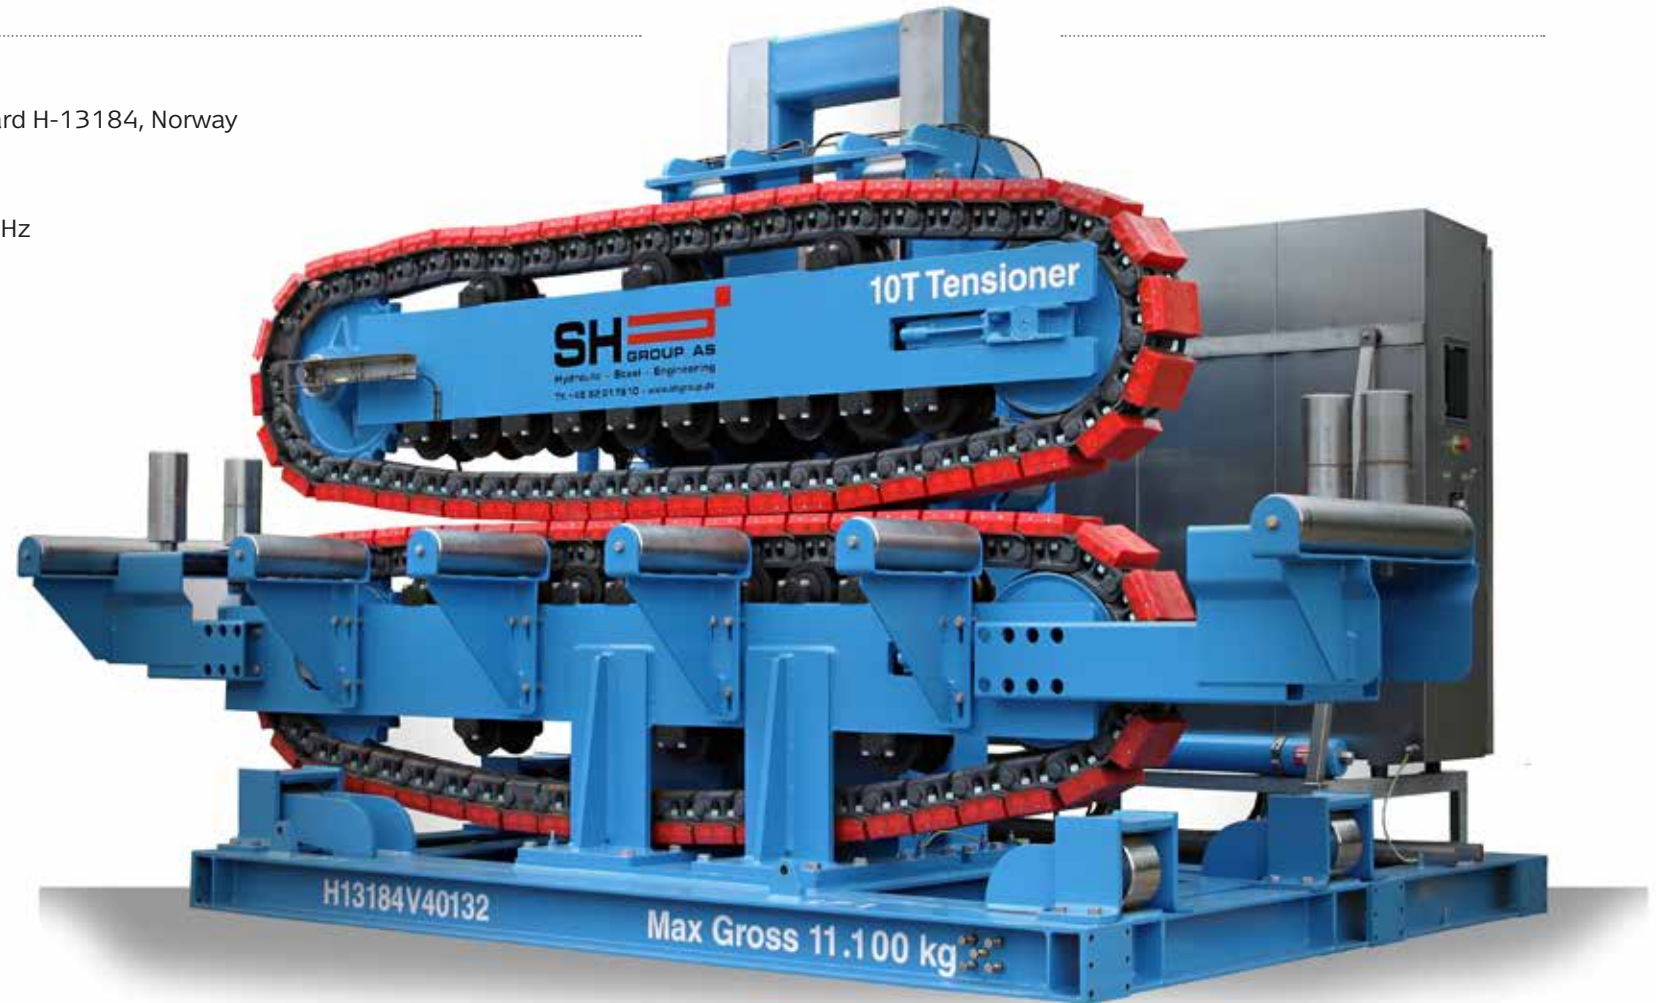

REFERENCE LIST

INFO:

- **Customer** Drammen Yard H-13184, Norway
- **Qty.** 2
- **Capacity** 10T
- **Speed** 990 m/h, 50Hz
- **Type** 2 track
- **Delivery** 2013

REFERENCE LIST

INFO:

- **Customer** RentOcean H-13595, Netherlands
- **Qty.** 1
- **Capacity** 15T
- **Speed** 740 m/h, 50Hz
- **Type** 2 track
- **Delivery** 2013

REFERENCE LIST

INFO:

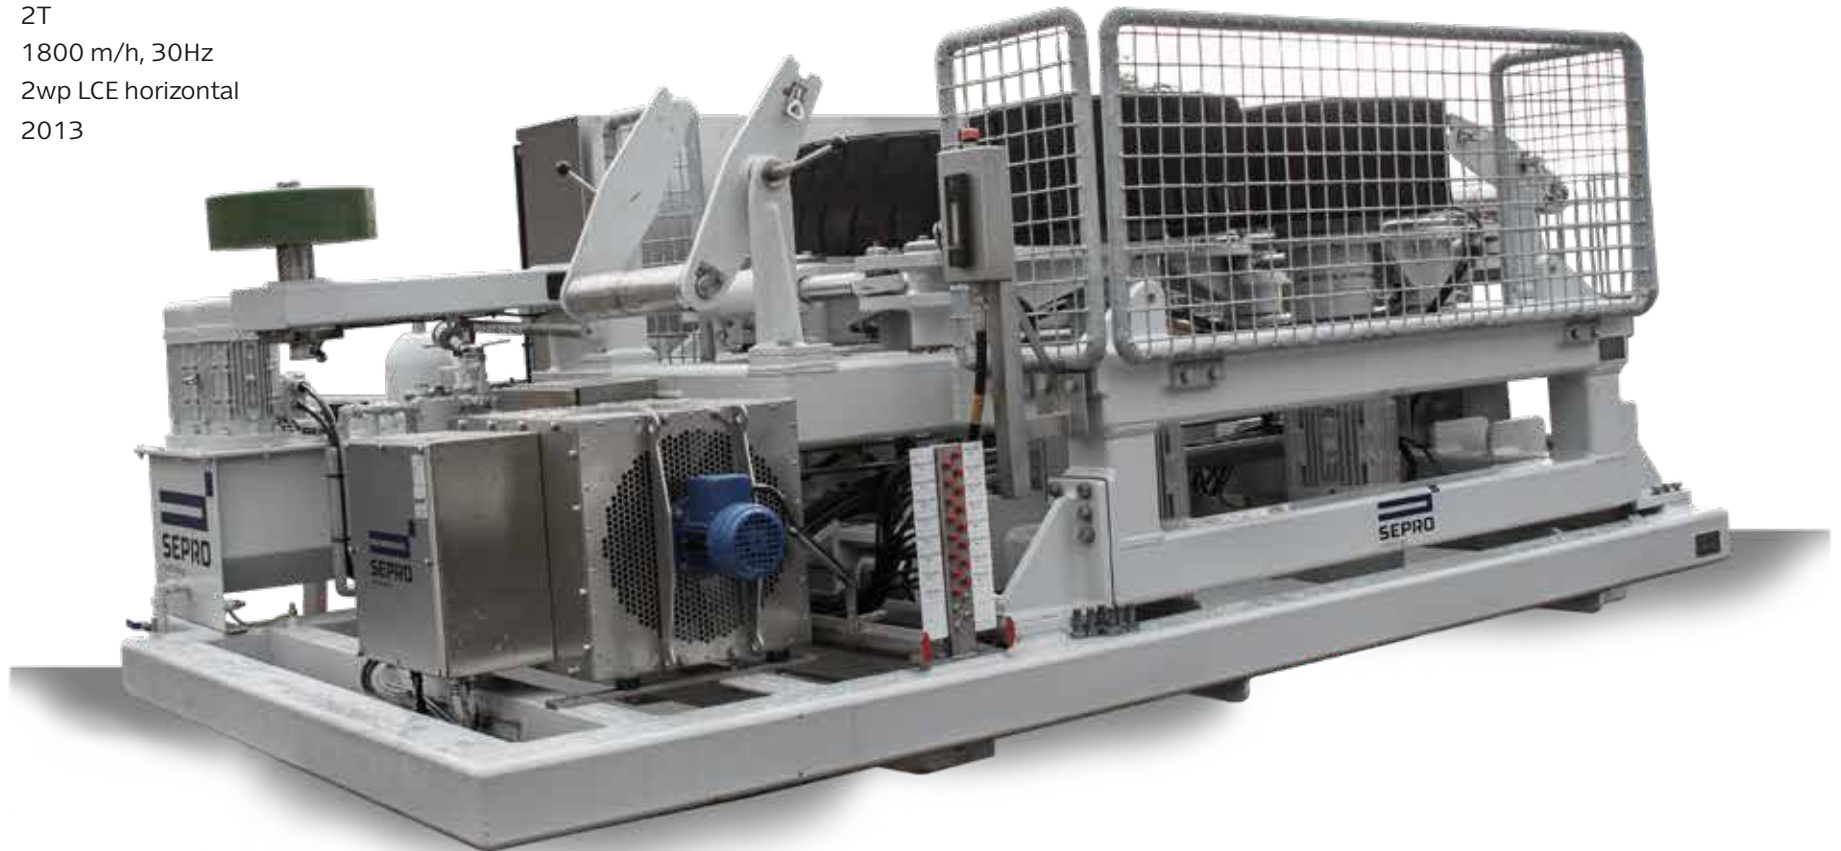

- **Customer** Drammen Yard H-13543, Norway
- **Qty.** 4
- **Capacity** 8T
- **Speed** 1800 m/h, 30Hz
- **Type** 8wp LCE horizontal
- **Delivery** 2013

REFERENCE LIST

INFO:

- **Customer** Drammen Yard H-13543, Norway
- **Qty.** 2
- **Capacity** 2T
- **Speed** 1800 m/h, 30Hz
- **Type** 2wp LCE horizontal
- **Delivery** 2013

REFERENCE LIST

INFO:

- **Customer** Drammen Yard SHG-002104, Norway
- **Qty.** 1
- **Capacity** 6T
- **Speed** 1800 m/h, 50Hz
- **Type** 6wp LCE vertical
- **Delivery** 2017

ABOUT SH GROUP

SH Group's activity comprises sales, marketing, development and design as well as production, installation and servicing of hydraulic, electric and mechanical constructions for the offshore, marine and industrial sectors.

SH Group and its subbrands Sepro™, NorCrane™ and Xervo™ provides a wide range of high-end technology solutions and services within customized deck equipment solutions, systems for subsea handling operations and lifeboat solutions approved for SOLAS and NORSOK.

Founded in 1974, SH Group currently employ about 250 employees at the headquarters in Svendborg and its service departments in Esbjerg and Lindø, Denmark. SH Group is present with sales Offices in Stavanger, Norway, Houston, U.S.A., Singapore and TianJin, China.
