## Upgrade and production

# Fingerboard service

SH Group has been involved in Fingerboards Bellyboards and pipe racking over the last decades.

### Advantages

- Eliminate potential dropped objects due to secondary retention
- Improved up-time
- Cycle and environmental tested
- Minimize sticky fingers and broken fingers
- Enhanced cylinder materials and long lifetime
- Easy to maintain and change seal kit
- Corrosion safe

**This is what one of our customers say about the enhanced cylinders we have developed:**

"We are very impressed. For each cylinder we install, our fingerboard works better and better. We will continue to purchase these cylinders". - A Technical Section Leader on a rig in the North Sea
